LOGNOTE -- Chief, Operations Group, 28 February 1985

2. [] Following from this morning's staff meeting:

25X1

- There is concern about abuse of overtime in the Agency. Supervisors who approve O/T are reminded of the need to validate that the O/T claimed actually was worked.
- D/FBIS is putting out a memo on forfeited leave. Basically, supervisors should make sure that employees take their leave, spreading it out during the year as possible, so that great bunch-ups of employees all wanting leave at the same time (e.g. Christmas) don't occur.
- The IG is doing yet another survey of TV in the Agency. This is likely to be as inconclusive as the earlier studies.

- []
- []

25X1

25X1

- [] formerly assigned to OGC, is the new Chief of PMCD. He is reviewing all of PMCD's current work--thus the delay in our receiving the final report of the position classification survey.
- Henceforth all new DDS&T employees, and all with two years or less service will be required to have PATBs.
- The Modernization RfP has been issued to about 20 potential bidders.
- AWP's will be discretionary except for office directors and CAT 4 employees. Group chiefs will give D/FBIS some "strategic goals" for his AWP.
- A proposal to establish a "Foreign national of the year" award was shot down at the Career Board meeting.
